
1001 DEFINITIONS

Approved Products List (APL) - A list of products which have been evaluated and/or meet ADOT specifications, standard drawings (when required), and are approved for use for construction and maintenance.

Bicycle - Every device propelled by human power upon which any person may ride, having two tandem wheels either of which is more than sixteen inches in diameter or having three wheels in contact with the ground any of which is more than sixteen inches in diameter.

Bikeway - Any road, street, path, or way which in some manner is specifically designated as being open to bicycle travel, regardless of whether such facilities are designated for the exclusive use of bicycles or are to be shared with other transportation modes.

Bomanite Crosswalk - A commercial decorative concrete crosswalk which has the appearance of paving bricks.

Controlled-Access Highway - Every highway, street, or roadway in respect to which owners or occupants of abutting lands and other persons have no legal right of access to or from the same except at such points only and in the manner as may be determined by the public authority having jurisdiction over such highway, street, or roadway.

New Product - Any product submitted for approval which has not previously been evaluated and/or does not meet a current ADOT specification or standard drawing. Any new materials, equipment, or methods to be used on a federal-aid project, which may be included and evaluated in experimental construction (IAW Vol. 6, Chap 4, Sec 2, Subsec 4 of the Federal-Aid Highway Program Manual).

Roadway - That portion of a highway improved, designed or ordinarily used for vehicular travel, exclusive of the sidewalk, berm or shoulder even though such sidewalk, berm or shoulder is used by persons riding bicycles or other human powered vehicles. In the event a highway includes two or more separate roadways the term "roadway" as used herein shall refer to any such roadway separately but not to all such roadways collectively.

Shoulder - The portion of the roadway contiguous with the traveled way for accommodation of stopped vehicles, for emergency use, and for lateral support of subbase, base and surface courses.

Street Furniture Traffic Signals - Decorative modular traffic signal poles and mast arms which incorporate signal heads, pedestrian heads, internally-illuminated street name signs, etc.

Traffic Control Products - Various types of materials and equipment necessary to carry out the requirements of the MUTCD and/or FHWA Safety Standards, which shall include but not be limited to signing materials, pavement marking materials, energy attenuators, temporary traffic barrier systems, flexible and non-flexible delineators, and those items which are used in traffic signal systems, highway lighting systems, and overhead sign lighting systems.

Traffic Control Products Evaluation Committee (TCPEC) - The ADOT Committee responsible for establishing operating policy for evaluating and approving/disapproving all traffic control products.

Traveled Way - The portion of the roadway for the movement of vehicles, exclusive of shoulders and auxiliary lanes.

Work Plan - A written program of action including a description of the experimental feature, objectives, measurements to be made, characteristics to be evaluated, time schedules, reporting requirements, cost estimates, construction and post-construction inspection schedules, and control sections.
